Deep River Karl Marlantes 2019-07-02 Three Finnish siblings head for the logging fields of nineteenth-century America in the New York Times--bestselling author's "commanding historical epic" (Washington Post). Born into a farm family, the three Koski siblings--Ilmari, Matti, and Aino--are raised to maintain their grit and resiliency in the face of hardship. This lesson in *sisu* takes on special meaning when their father is arrested by imperial Russian authorities, never to be seen again. Lured by the prospects of the Homestead Act, Ilmari and Matti set sail for America, while young Aino, feeling betrayed and adrift after her Marxist cell is exposed, follows soon after. The brothers establish themselves among a logging community in southern Washington, not far from the Columbia River. In this New World, they each find themselves--Ilmari as the family's spiritual rock; Matti as a fearless logger and entrepreneur; and Aino as a fiercely independent woman and union activist who is willing to make any sacrifice for the cause that sustains her. Layered with fascinating historical detail, this novel bears witness to the stump-ridden fields that the loggers--and the first waves of modernity--leave behind. At its heart, *Deep River* explores the place of the individual, and of the immigrant, in an America still in the process of defining its own identity.

Beetlecreek William Demby 2010-12-01 After several years of silence and seclusion in Beetlecreek's black quarter, a carnival worker named Bill Trapp befriends Johnny Johnson, a Pittsburgh teenager living with relatives in Beetlecreek. Bill is white. Johnny is black. Both are searching for acceptance, something that will give meaning to their lives. Bill tries to find it through good will in the community. Johnny finds it in the Nightriders, a local gang. David Diggs, the boy's dispirited uncle, aspires to be an artist but has to settle for sign painting. David and Johnny's new friendship with Bill kindles hope that their lives will get better. David's marriage has failed; his wife's shallow faith serves as her outlet from racial and financial oppression. David's unhappy routine is broken by Edith Johnson's return to Beetlecreek, but this relationship will be no better than his loveless marriage. Bill's attempts to unify black and white children with a community picnic is a disaster. A rumor scapegoats him as a child molester, and Beetlecreek is titillated by the imagined crimes. This novel portraying race relations in a remote West Virginia town has been termed an existential classic. It would be hard, said *The New Yorker*, to give Mr. Demby too much praise for the skill with which he has maneuvered the relationships in this book. During the 1960s Arna Bontemps wrote, "Demby's troubled townfolk of the West Virginia mining region foreshadow present dilemmas. The pressing and resisting social forces in this season of our discontent and the fatal paralysis of those of us unable or unwilling to act are clearly anticipated with the dependable second sight of a true artist." First published in 1950, Beetlecreek stands as a moving condemnation of provincialism and fundamentalism. Both a critique of racial hypocrisy and a new direction for the African-American novel, it occupies fresh territory that is neither the ghetto realism of Richard Wright nor the ironic modernism of Ralph Ellison. Even after fifty years, more or less, William Demby said in 1998, "It still seems to me that Beetlecreek is about the absence of symmetry in human affairs, the imperfectibility of justice the tragic inevitability of mankind's inhumanity to mankind." *Special Educational Needs and Inclusive Practices* Fabio Dovigo 2017 Today, school is becoming a rapidly changing learning environment. Thinking about students as a homogeneous population is no longer allowed, as diversity - in terms of culture, language, gender, family organisation, learning styles and so on - has emerged as a key challenge for education today. The debate on Special Educational Needs largely reflects this challenge, as working in school implies careful reconsideration of what we mean by "normal" and "special." Current educational intervention is generally based on a deficit and "within-child" model of facing SEN, whereas very little attention is given to the role of learning environments. The focus is on the child more than on the whole class, and on cognition and technical provisions more than on affective, sociocultural and community dimensions of learning. Conversely, regarding students and their needs as "hidden voices" allows us to adopt a transformative approach which sees diversity as a stimulus for the development of educational practices that might benefit all children and help school to become an inclusive and "moving" organisation. The aim of the book is twofold: on the one hand, it offers a systematic overview of the inclusive education state-of-the-art in six countries (Germany, Italy, Norway, Sweden, UK, and USA) based on the contributions by well-known scholars such as Christy Ashby, Barbara Brokamp, Fabio Dovigo, Kari Nes, Mara Westling Allodi, Tony Booth, and Beth Ferri; on the other hand, the book analyses five cases of good practices of inclusion related to different subjects and school levels.

The Religious Sense L. Giussani 1997 The Religious Sense, the fruit of many years of dialogue with students, is an exploration of the search for meaning in life. Luigi Giussani shows that the nature of reason expresses itself in the ultimate need for truth, goodness, and beauty. These needs constitute the fabric of the religious sense, which is evident in every human being everywhere and in all times. So strong is this sense that it leads one to desire that the answer to life's mystery might reveal itself in some way.

The Secrets of Italy Corrado Augias 2014-04-01 One of Italy's best-known writers takes a Grand Tour through her cities, history, and literature in search of the true character of this contradictory nation. There is Michelangelo, but also the mafia. Pavarotti, but also Berlusconi. The debonair Milanese, but also the infamous captain of the Costa Concordia cruise ship. This is Italy, admired and reviled, a country that has guarded her secrets and confounded outsiders. Now, when this "Italian paradox" is more evident than ever, cultural authority Corrado Augias poses the puzzling questions: how did it get this way? How can this

peninsula be simultaneously the home of geniuses and criminals, the cradle of beauty and the butt of jokes? An instant #1 bestseller in Italy, Augias's latest sets out to rediscover the story-different from the history-of this country. Beginning with how Italy is seen from the outside and from the inside, he weaves a geo-historical narrative, passing through principal cities and rereading the classics and the biographies of the people that have, for better or worse, made Italians who they are. From the gloomy atmosphere of Cagliostro's Palermo to the elegant court of Maria Luigia in Parma, from the ghetto of Venice to the heroic Neapolitan uprising against the Nazis, Augias sheds light on the Italian character, explaining it to outsiders and to Italians themselves. The result is a "novel of a nation," whose protagonists are both the figures we know from history and literature and characters long hidden between the cracks of historical narrative and memory.
