**Television Development** Bob Levy 2019-02-15 Development is a large and central part of the American TV industry, and yet the details of how it works – who makes development decisions and why, where ideas for new shows come from, even basics like the differences between what TV studios and TV networks do – remain elusive to many. In this book, lecturer and acclaimed television producer Bob Levy offers a detailed introduction to television development, the process by which the Hollywood TV industry creates new scripted series. Written both for students and industry professionals, Television Development serves as a comprehensive introduction to all facets of the development process: the terminology, timelines, personnel and industrial processes that take a new TV project from idea to pitch to script to pilot to series. In addition to describing these processes, Levy also examines creative strategies for successful development, and teaches readers how to apply these strategies to their own careers and speak the language of development across all forms of visual storytelling. Written by the renowned producer responsible for developing and executive producing Gossip Girl and Pretty Little Liars, Television Development is an essential starting point for students, executives, agents, producers, directors and writers to learn how new series are created. Accompanying online material includes sample pitches, pilot scripts, and other development documents.

**The Future of Television** Pamela Douglas 2015 The book's journey into the future of television begins with “You Are Here,” delving into “The Great Convergence” of television and Internet and the vortex of change we all inhabit now. Then, glancing back, we explore “The Old World” of broadcast television to understand how we got to this moment of transition. Next, traveling “Between Worlds,” we visit cable television and see how the boundaries between network, cable, and Internet are mutating. After that, we enter “The New World” that ranges from empires like Netflix and Amazon down to Kickstarter-funded web series, and all the creative expressions that abound. Finally, we look ahead to the “Far Frontier” of interactivity and transmedia and a distant, fantastic future. All these experiences are focused on how a writer, producer, director, or entrepreneur can use the emerging possibilities to create original television now and in the coming decade.

**Technically Involved** Linda W. Braun 2003-08-11 "Instead of creating programs for teens, author and YA/technology advocate Linda Braun advocates working with teens to create library technology-related projects for them - and others. Technically Involved outlines some proven ideas to invite participation and channel teen interest in technology, giving teens an opportunity to serve their community." "Explaining how and why to integrate technology into youth participation projects, Braun illustrates how libraries can open up possibilities for teens to initiate and develop activities on their own. Specific program suggestions and appendixes provide details to involve teens at every step of the process and identify activities that meet teens' developmental needs. Filled with success stories, examples, and a wealth of potential teen-library technology programs, Technically Involved gives librarians a proactive tool for harnessing teen energy with technology for the library."--BOOK JACKET.

**Richard Bangs Adventures with Purpose** Richard Bangs 2010-10-22 Running such wild rivers as the crocodile-infested Tekaze in Ethiopia, Richard Bangs used to lived for the adrenalin, for the rush of reveling in the misery of hardship and sidestepping death around every bend. Now a respected conservationist, he still travels to demanding exotic environments, but with a new, more sober objective: he wants to save these special places. Bangs' personal experiences of ""witnessing many special places preserved and lost"" led him to write Adventures with Purpose, and the book follows the author to Bosnia, Libya, Panama, the American West, Rwanda, Thailand, and more as he seeks out disappearing cultures, peoples, habitats, and ecosystems particularly rivers so that he can show readers that the loss of these special places will be a catastrophe. Written in the vivid, intimate style that made his earlier books both critical and commercial successes, Richard Bangs Adventures with Purpose is an unforgettable composite portrait of a world in peril and an inspiring guide to rescuing it.

*Writing the Comedy Pilot Script* Manny Basanese 2021-11-30 Navigating through the challenging process of writing a comedy pilot, this book will help screenwriters to create an original script for television. Practical and accessible, the book presents a step-by-step guide focusing on the key elements of the process. Incorporating both the history of TV comedy as well as its current evolving state in this age of the dramedy and an ever-increasing variety of broadcast and streaming platforms, the book will serve as a guide for the fledgling sitcom scribe. Author Manny Basanese breaks down the comedy pilot writing process from what may be perceived as an overwhelming, time-consuming mission into a series of much more manageable, smaller steps (from logline to outline to 1st, 2nd and polished draft). Utilizing his experience in Hollywood's sitcom trenches, the author offers real-world advice on such topics as building the comedy pilot "world," creating memorable comic characters, sound sitcom structure, and the importance of crafting an emotional through line in a comedy pilot. Finally, there is also practical career guidance for marketing this just-completed script and breaking into the industry with advice on various topics such as the value of networking as well as gaining representation in the competitive Hollywood jungle. It is ideal for students of screenwriting and aspiring comedy screenwriters.

**The Ultimate Pet Health Guide** Gary Richter, MS, DVM 2017-08-15 As a holistic veterinarian and scientist, Dr. Gary Richter helps dog and cat owners to navigate the thicket of treatment options and separate the fact from the fiction. He wants us to use what actually works, not just what Western science or alternative medicine say "should" work. This multifaceted approach to health is known as integrative medicine. Dr. Richter examines traditional medicine from many cultures alongside modern medical techniques, describing the best of complementary care and the best of conventional veterinary medicine. Every treatment he recommends has the backing of scientific research or years of successful outcomes in his clinical practice. After explaining the treatment, he offers specific recommendations for an integrative approach to common diseases, including allergies, skin conditions, diabetes, heart disease, and cancer. A holistic approach to health includes nutrition, as it sets up the foundation for your pet's health. Dr. Richter cuts through the hype in the pet-food world and explains how to choose the best commercial foods and supplements, and even includes both raw and cooked dog- and cat-food recipes for general diet as well as to treat specific needs. He also explains how we can use the right foods and supplements to "hack" the body's processes, including the immune system.
