Managing the Project Team Vijay K. Verma 1997 Annotation Today, project managers operate in a global environment and work on joint projects characterized by cultural diversity. Teamwork is the key to project success. This book focuses on developing and sustaining the project team throughout the project life cycle and promotes working interdependently in a climate of mutual trust and a win-win atmosphere. It will help readers understand the stages of team development, build strong project teams by eliminating barriers to high performance, select and organize the project team for success by gaining commitment through participative decision-making, and develop a matching skill and responsibility matrix. After reading this book, project leaders should be able to create an environment to facilitate open and effective communication, develop trust and motivation within the project team, and develop appropriate team leadership styles and strategies to suit the project. This book is Volume Three of The Human Aspects of Project Management series.

Unified Protocol for Transdiagnostic Treatment of Emotional Disorders David H. Barlow 2017-12-15 Contemporary research on major emotional disorders emphasizes their commonalities rather than their differences. This research continues to lend support for a unified transdiagnostic approach to treatment of these disorders that considers their commonalities and is applicable to a range of emotional problems. Unified Protocol for Transdiagnostic Treatment of Emotional Disorders provides an alternative to disorder-specific treatments of various emotional disorders, designed to be applicable to the wide range of anxiety and other disorders with strong emotional components. The Therapist Guide and accompanying client Workbook present an eight-module therapy program that puts substantial emphasis on emotion-focused approaches, helping clients confront and experience challenging emotions while teaching them how to regulate those emotions. Expanded considerably in this second edition, the volume provides guidance on using the Unified Protocol (UP) to address problems not only with anxiety, but also with depression, eating disorders, non-suicidal self-injury, substance use, and anger. Treatment procedures have been further elucidated and more guidance is provided to practitioners on how to present key treatment concepts. Chapters brand new to this updated edition introduce functional assessment and describe how to provide the UP in a group format, while patient materials have been revised, streamlined, and made more user-friendly.

The Forgotten Rohingya: Their Struggle for Human Rights in Burma Habib Habib Siddiqui 2019 Imagine that you are living in a country that does not recognize you as a citizen in spite of the fact that your people have maintained a continuous existence there for several centuries. If that was not enough of a traumatic experience, consider that because of your racial, ethnic and religious identity other ethnic groups that are fighting the brutal military regime in your country for their self-determination and human rights consider you as "settlers" from a neighboring country. It must be your worst nightmare when you realize that half of your people (almost 2 million) have been forced to take asylum or refuge outside, and you may be the next in line to seek a way out of this living hell of xenophobia, discrimination, intolerance, racism and bigotry.The victims are the Rohingya people of Burma (Myanmar). Because of their religion, race, ethnicity, color and language they are the most discriminated and persecuted people in our planet. Some argue that they are also one of the most forgotten. The Myanmar military regime has denied their citizenship rights, claiming that they are illegal settlers from nearby Bangladesh who have moved into Arakan during the British occupation of Burma in the 19th century. Is there any truth to such allegations? Does the military junta apply the same litmus test against all ethnic and religious groups in matters of citizenship? What is the basis for a nation's claim to self-determination? Must a people wander in the wilderness for two millennia and suffer repeated persecution, humiliation and genocide to qualify? How about the rights of a minority community to survive with their culture and traditions intact? Do they need to be 'children' of a 'higher' God to qualify? What makes the children of a 'lesser' God to be forgotten and denied the same treatment and privilege that was granted hitherto to other nations?For much of its history, Burma has been ruled by military. As has once again been demonstrated recently they are brutal, savage and tyrannical. They have ignored people's verdict in the election and imprisoned leaders and workers of the democracy movement. They cannot be guarantors or protectors of human rights of anyone, let alone religious and ethnic minorities. Do you know that the Rohingyas - face cruel restriction on marriage and those married without government authorization are paraded naked on the streets?- Are restricted from traveling outside their villages?- Have no legal right to own land or property?- Are restricted from getting education, finding work, getting medical and health care? - Are subjected to land confiscation, forced eviction and destruction of homes, offices, schools, mosques, shops, etc., and face religious persecution on a daily basis? - Are victims of staged riots, forced starvation, arbitrary taxation, extortion, arrest, torture and extra-judicial killings?- Are forced to do slave labor for establishment of government infrastructure, new Buddhist settlements, pagodas and monasteries on evicted lands with the government intent of changing the landscape and demography of Arakan?- Are forced to convert to Buddhism &/or worship Buddha? Do you know that when it comes to the Rohingya people, the Burmese government doesn't uphold any of the Articles of the Universal Declaration of Human Rights?Nothing can excuse us from the criminal silence that we practice in not voicing our concern about the plight of the Rohingya people. "The Forgotten Rohingya" makes a strong case for mobilizing concerned citizens of our globe to ease their sufferings. The author analyzes origin of the Rohingya people and offers ideas to solve their problem. The author also discusses problems of xenophobia and racism, which are so rampant in this country of many races, ethnicities and religions. He also analyzes the role of Daw Suu Kyi and failure of Burma's orange revolution.

Yvain Chretien de Troyes 1987-09-10 The twelfth-century French poet Chrétien de Troyes is a major figure in European literature. His courtly romances fathered the Arthurian tradition and influenced countless other poets in England as well as on the continent. Yet because of the difficulty of capturing his swift-moving style in translation, English-speaking audiences are largely unfamiliar with the pleasures of reading his poems. Now, for the first time, an experienced translator of medieval verse who is himself a poet provides a translation of Chrétien's major poem, Yvain, in verse that fully and satisfyingly captures the movement, the sense, and the spirit of the Old French original. Yvain is a courtly romance with a moral tenor; it is ironic and sometimes bawdy; the poetry is crisp and vivid. In addition, the psychological and the socio-historical perceptions of the poem are of profound literary and historical importance, for it evokes the emotions and the values of a flourishing, vibrant medieval past.

Wild Horses of the World Kelly Wilson 2020-09-29 Wild horses have an important part of wildlife on Earth for centuries, yet many herds now face serious threats -- and very few people can claim to have seen them galloping free across the plains, or scaling mountain passes. Kelly Wilson has. For this book, she spent years researching the world's wildest herds, travelling the globe and living among them. From the remote forests of Canada and snow-capped mountains of America, to the unforgiving deserts of Australia and windswept beaches of New Zealand, Kelly has captured a raw and honest portrayal of these animals -- their rugged beauty, their unique way of life, and the harsh, yet picturesque landscapes they call home. Live the adventure alongside her, as Kelly looks into the secret lives of wild horses, how their populations are managed, and the many hardships they must overcome in their fight for survival.

The Counselor in a Changing World Charles Gilbert Wrenn 1962 "This book proposes a blueprint for school counseling and for school counselors that reaches into the next decade or more. It emphasizes the crucial fact that there is only one way we can serve youth in the years ahead and serve them well. We must understand the new social forces that are influencing young people, as well as the rest of us--and we must learn to apply new psychological insights into the nature of the individual. The report has been prepared for all people who work in schools--counselors, teachers, and administrators--and for those parents and interested citizens who wish to see counseling develop realistically. An attempt has been made to write clearly and simply about the need of young people for counseling help in a rapidly changing world"--Introduction. Behavioral Activation for Depression Christopher R. Martell 2013-02-08 From leading experts in behavioral activation research and clinical practice, this volume presents an empirically tested approach for helping clients overcome depression by becoming active and engaged in their own lives. Behavioral activation is a stand-alone treatment whose principles can be integrated easily with other approaches that therapists already use. Guidelines are presented for identifying individualized treatment targets, monitoring and scheduling "antidepressant" activities -- experiences that are likely to be rewarding and pleasurable -- and decreasing avoidance and ruminative thinking. Rich clinical illustrations include an extended case example that runs throughout the book. Twenty-two reproducible forms, worksheets, and tables can be downloaded and printed in a convenient 8 1/2" x 11" size.
