

Henry VIII And The English Reformation British History In Perspective

This is likewise one of the factors by obtaining the soft documents of this **Henry VIII And The English Reformation British History In Perspective** by online. You might not require more mature to spend to go to the books creation as capably as search for them. In some cases, you likewise complete not discover the revelation Henry VIII And The English Reformation British History In Perspective that you are looking for. It will categorically squander the time.

However below, like you visit this web page, it will be in view of that utterly easy to acquire as skillfully as download lead Henry VIII And The English Reformation British History In Perspective

It will not say you will many period as we tell before. You can attain it even though appear in something else at home and even in your workplace. consequently easy! So, are you question? Just exercise just what we meet the expense of under as well as evaluation **Henry VIII And The English Reformation British History In Perspective** what you like to read!

The King's Reformation G. W. Bernard
2007-01-01 A major reassessment of
England's break with Rome

The English Reformation Arthur Geoffrey
Dickens 1991 This book presents a new
edition of the classic study of the religious
changes that transformed England in the
sixteenth century. Henry VIII officially
brought the Protestant Reformation to
England in the 1530s when he severed the
English Church from the Papacy. But the
seeds of the movement, according to
A.G.Dickens, were planted much earlier. The
English Reformation, first published in 1964,
follows the movement from its late medieval
origins through the settlement of Elizabeth I
in 1559 and the rise of Puritanism.

Voices of the English Reformation John
N. King 2014-03-26 Spanning the different
phases of the English Reformation from
William Tyndale's 1525 translation of the
Bible to the death of Elizabeth I in 1603,
John King's magisterial anthology brings
together a range of texts inaccessible in
standard collections of early modern works.
The readings demonstrate how Reformation

ideas and concerns pervade well-known
writings by Spenser, Shakespeare, Sidney,
and Marlowe and help foreground such
issues as the relationship between church
and state, the status of women, and
resistance to unjust authority. Plays,
dialogues, and satires in which clever
laypersons outwit ignorant clerics
counterbalance texts documenting the
controversy over the permissibility of
theatrical performance. Moving biographical
and autobiographical narratives from John
Foxe's Book of Martyrs and other sources
document the experience of Protestants
such as Anne Askew and Hugh Latimer, both
burned at the stake, of recusants, Jesuit
missionaries, and many others. In this
splendid collection, the voices ring forth
from a unique moment when the course of
British history was altered by the fate and
religious convictions of the five queens:
Catherine Parr, Lady Jane Grey, Mary I, Mary
Queen of Scots, and Elizabeth I.

Henry VIII Richard Rex 2009-10-15 An
accessible biography of Henry VIII by one of
the country's leading Tudor experts.

The Gospel and Henry VIII Alec Ryrie

2003-10-09 During the last decade of Henry VIII's life, his Protestant subjects struggled to reconcile two loyalties: to their Gospel and to their king. This book tells the story of that struggle and describes how a radicalised English Protestantism emerged from it. Focusing on the critical but neglected period 1539-47, Dr Ryrie argues that these years were not the 'conservative reaction' of conventional historiography, but a time of political fluidity and ambiguity. Most evangelicals continued to hope that the king would favour their cause, and remained doctrinally moderate and politically conformist. The author examines this moderate reformism in a range of settings - in the book trade, in the universities, at court and in underground congregations. He also describes its gradual eclipse, as shifting royal policy and the dynamics of the evangelical movement itself pushed reformers towards the more radical, confrontational Protestantism which was to shape the English identity for centuries.

Memory and the English Reformation

Alexandra Walsham 2020-11-12 Recasts the Reformation as a battleground over memory, in which new identities were formed through acts of commemoration, invention and repression.

Foxe's Book of Martyrs John Foxe

2017-09-11 This Christian classic tells the stories of brave men and women who were martyred for their faith in the fourteenth through sixteenth centuries.

The Voices of Morebath Eamon Duffy 2003-08-11 In the fifty years between 1530 and 1580, England moved from being one of the most lavishly Catholic countries in Europe to being a Protestant nation, a land of whitewashed churches and antipapal preaching. What was the impact of this religious change in the countryside? And how did country people feel about the revolutionary upheavals that transformed their mental and material worlds under Henry VIII and his three children? In this book a reformation historian takes us inside the mind and heart of Morebath, a remote and tiny sheep farming village on the southern edge of Exmoor. The bulk of

Morebath's conventional archives have long since vanished. But from 1520 to 1574, through nearly all the drama of the English Reformation, Morebath's only priest, Sir Christopher Trychay, kept the parish accounts on behalf of the churchwardens. Opinionated, eccentric, and talkative, Sir Christopher filled these vivid scripts for parish meetings with the names and doings of his parishioners. Through his eyes we catch a rare glimpse of the life and pre-Reformation piety of a sixteenth-century English village. The book also offers a unique window into a rural world in crisis as the Reformation progressed. Sir Christopher Trychay's accounts provide direct evidence of the motives which drove the hitherto law-abiding West-Country communities to participate in the doomed Prayer-Book Rebellion of 1549 culminating in the siege of Exeter that ended in bloody defeat and a wave of executions. Its church bells confiscated and silenced, Morebath shared in the punishment imposed on all the towns and villages of Devon and Cornwall. Sir Christopher documents the changes in the community, reluctantly Protestant and increasingly preoccupied with the secular demands of the Elizabethan state, the equipping of armies, and the payment of taxes. Morebath's priest, garrulous to the end of his days, describes a rural world irrevocably altered and enables us to hear the voices of his villagers after four hundred years of silence.

Henry VIII, the League of Schmalkalden, and the English Reformation

Rory McEntegart 2002 England's first Protestant foreign policy venture took place under Henry VIII, who in the wake of the break with Rome pursued diplomatic contacts with the League of Schmalkalden, the German Protestant alliance. This venture was supported by evangelically-inclined counsellors such as Thomas Cromwell and Thomas Cranmer, while religiously conservative figures such as Cuthbert Tunstall, John Stokesley and Stephen Gardiner sought to limit such contacts. The king's own involvement reflected these opposed reactions: he was

interested in the Germans as alliance partners and as a consultative source in establishing the theology of his own Church, but at the same time he was reluctant to accept all the religious innovations proposed by the Germans and their English advocates. This study breaks new ground in presenting religious ideology, rather than secular diplomacy, as the motivation behind Anglo-Schmalkaldic negotiations. Relations between England and the League exerted a considerable influence on the development of the king's theology in the second half of the reign, and hence affected the redirection of religious policy in 1538, the passing of the Act of Six Articles, the marriage of Henry to Anne of Cleves and the fall of Thomas Cromwell. The examination of the development of Henry's religious thinking is set in the wider context of the foreign policy imperatives of the German Protestants, the ministerial priorities of Thomas Cromwell and factional politics at the court of Henry VIII. RORY McENTEGART is Academic Director of American College Dublin.

Politics, Censorship, and the English Reformation Loades 1991 A collection of Professor Loades' essays on aspects of the English Reformation covering the political context, censorship and clandestine printing, relations with Rome, and sectarianism. An introduction examines the role of the state in the development of the Anglican Settlement.

The Six Wives of Henry VIII Alison Weir 2007-12-01 A "brilliantly written and meticulously researched" biography of royal family life during England's second Tudor monarch (San Francisco Chronicle). Either annulled, executed, died in childbirth, or widowed, these were the well-known fates of the six queens during the tempestuous, bloody, and splendid reign of Henry VIII of England from 1509 to 1547. But in this "exquisite treatment, sure to become a classic" (Booklist), they take on more fully realized flesh and blood than ever before. Katherine of Aragon emerges as a staunch though misguided woman of principle; Anne Boleyn, an ambitious adventuress with a

penchant for vengeance; Jane Seymour, a strong-minded matriarch in the making; Anne of Cleves, a good-natured woman who jumped at the chance of independence; Katherine Howard, an empty-headed wanton; and Katherine Parr, a warm-blooded bluestocking who survived King Henry to marry a fourth time. "Combin[ing] the accessibility of a popular history with the highest standards of a scholarly thesis", Alison Weir draws on the entire labyrinth of Tudor history, employing every known archive—early biographies, letters, memoirs, account books, and diplomatic reports—to bring vividly to life the fates of the six queens, the machinations of the monarch they married and the myriad and ceaselessly plotting courtiers in their intimate circle (The Detroit News). In this extraordinary work of sound and brilliant scholarship, "at last we have the truth about Henry VIII's wives" (Evening Standard).

Reformation England 1480-1642 Peter Marshall 2022-01-13 Now in its third edition, *Reformation England 1480-1642* provides a clear and accessible narrative account of the English Reformation, explaining how historical interpretations of its major themes have changed and developed over the past few decades, where they currently stand, and where they seem likely to go. This new edition brings the text fully up-to-date with description and analysis of recent scholarship on the pre-Reformation Church, the religious policies of Henry VIII, Edward VI and Mary I, the impact of Elizabethan and Jacobean Puritanism, the character of English Catholicism, the pitfalls of studying popular religion, and the relationship between the Reformation and the outbreak of civil war in the seventeenth century. With a significant amount of fresh material, including maps, illustrations and a substantial new Afterword on the Reformation's legacies in English (and British) history, *Reformation England 1480-1642* will continue to be an indispensable guide for students approaching the complexities and controversies of the English Reformation for the first time, as well as for anyone wishing

to deepen their understanding of this fascinating and formative chapter in the history of England.

Henry VIII Susan Doran 2009 The year 2009 marks the 500th anniversary of Henry VIII's accession to the throne, and to celebrate this momentous occasion, leading Tudor scholars David Starkey and Susan Doran examine the extraordinary transformations—personal and political, intellectual and religious, literary, aesthetic, and linguistic—that took place during Henry's reign. Drawing on the British Library's unparalleled collections, *Henry VIII* explores the motives and beliefs that spurred Henry's actions, masterfully telling the story of his reign. This refreshing approach reaches beyond the myths and stereotypes surrounding this monumental historical figure and encourages readers to reassess their perceptions of the great Tudor monarch who still manages to cast a spell over our imaginations. Richly illustrated with color images from the accompanying exhibition at the British Library—including many of Henry's own annotated volumes—and including contributions from notable scholars such as Eamon Duffy and James Carley, this volume presents an unsurpassed firsthand outline of the revolutionary changes in ideas that took place during Henry's reign—and above all, in his own mind.

Tudors: The History of England from Henry VIII to Elizabeth I Peter Ackroyd 2013-10-08 Peter Ackroyd, one of Britain's most acclaimed writers, brings the age of the Tudors to vivid life in this monumental book in his *The History of England* series, charting the course of English history from Henry VIII's cataclysmic break with Rome to the epic rule of Elizabeth I. Rich in detail and atmosphere, Peter Ackroyd's *Tudors* is the story of Henry VIII's relentless pursuit of both the perfect wife and the perfect heir; of how the brief reign of the teenage king, Edward VI, gave way to the violent reimposition of Catholicism and the stench of bonfires under "Bloody Mary." It tells, too, of the long reign of Elizabeth I, which, though marked by civil strife, plots against

the queen and even an invasion force, finally brought stability. Above all, however, it is the story of the English Reformation and the making of the Anglican Church. At the beginning of the sixteenth century, England was still largely feudal and looked to Rome for direction; at its end, it was a country where good governance was the duty of the state, not the church, and where men and women began to look to themselves for answers rather than to those who ruled them.

The English People at War in the Age of Henry VIII Steven Gunn 2018-01-04 War should be recognised as one of the defining features of life in the England of Henry VIII. Henry fought many wars throughout his reign, and this book explores how this came to dominate English culture and shape attitudes to the king and to national history, with people talking and reading about war, and spending money on weaponry and defence.

Documents of the English Reformation

Gerald Bray 2019-01-31 The Reformation era has long been seen as crucial in developing the institutions and society of the English-speaking peoples, and study of the Tudor and Stuart era is at the heart of most courses in English history. The influence of the Book of Common Prayer and the King James version of the Bible created the modern English language, but until the publication of Gerald Bray's *Documents of the English Reformation* there had been no collection of contemporary documents available to show how these momentous social and political changes took place. This comprehensive collection covers the period from 1526 to 1700 and contains many texts previously relatively inaccessible, along with others more widely known. The book also provides informative appendixes, including comparative tables of the different articles and confessions, showing their mutual relationships and dependence. With fifty-eight documents covering all the main Statutes, Injunctions and Orders, Prefaces to prayer books, Biblical translations and other relevant texts, this third edition of *Documents of the English R*

The English Reformation ALEC RYRIE

2020-02-20 'Masterly' - Eric Metaxas 'Mould-breaking' - John Guy 'A little gem of a book' - Suzannah Lipscomb From the Introduction: 'There is no such thing as "the English Reformation". A "Reformation" is a composite event which is only made visible by being framed the right way. It is like a "war": a label we put onto a particular set of events, while we decide that other - equally violent - acts are not part of that or of any "war". Sixteenth- and seventeenth-century English people knew that they were living through an age of religious upheaval, but they did not know that it was "the English Reformation", any more than the soldiers at the battle of Agincourt knew that they were fighting in "the Hundred Years' War". . . . 'Plainly these religious upheavals permanently changed England and, by extension, the many other countries on which English culture has made its mark. There is not, however, a single master narrative of all this turmoil. How could there be? . . . The way you choose to tell the story is governed by what you think is important and what is trivial, by whether there are heroes or villains you want to celebrate or condemn, and by the legacies and lessons which you think matter. Once you have chosen your frame, it will give you the story you want. 'So this book does not tell "the story" of "the English Reformation". It tells the stories of six English Reformations, or rather six stories of religious change in sixteenth- and seventeenth-century England. The stories are parallel and overlapping, but each has a somewhat different chronological frame, cast of characters and set of pivotal events, and has left a different legacy.'

The Debate on the English Reformation
Rosemary O'Day 1986

Henry VIII and the English Reformation

David Gordon Newcombe 1995 When Henry VIII died in 1547 he left a church in England that had broken with Rome - but was it Protestant? The English Reformation was quite different in its methods, motivations and results to that taking place on the continent. This book: * examines the

influences of continental reform on England * describes the divorce of Henry VIII and the break with Rome * discusses the political and religious consequences of the break with Rome * assesses the success of the Reformation up to 1547 * provides a clear guide to the main strands of historical thought on the topic.

Religious Identities in Henry VIII's England

Peter Marshall 2006 In this volume Peter Marshall explores a wide range of evidence that underlines the complex web of overlapping and competing religious identities that Henry VIII's subjects were forced to assume as he sought to take control of the English church. Investigating broad issues of conversion, polemic and propaganda, scripture, exile, forgery and miracles, as well as looking at specific cases of individuals and events, a rich picture is built up of the ambiguities and paradoxes of the early reformation process in England. This book includes three entirely new chapters, and eight previously published but updated essays.

Elizabeth I and Her Circle Susan Doran 2015 The story of Elizabeth I's inner circle and the crucial human relationships which lay at the heart of her personal and political life. A vivid and often dramatic account, offering a deeper insight into Elizabeth's emotional and political conduct, and challenging many popular myths about her.

A Companion to Tudor Britain Robert Tittler 2008-04-15 A Companion to Tudor Britain provides an authoritative overview of historical debates about this period, focusing on the whole British Isles. An authoritative overview of scholarly debates about Tudor Britain Focuses on the whole British Isles, exploring what was common and what was distinct to its four constituent elements Emphasises big cultural, social, intellectual, religious and economic themes Describes differing political and personal experiences of the time Discusses unusual subjects, such as the sense of the past amongst British constituent identities, the relationship of cultural forms to social and political issues, and the role of scientific inquiry

Popular Politics and the English

Reformation Ethan H. Shagan 2003 Table of contents

Henry VIII and the English Reformation

Richard Rex 2006-03-29 Abandoning the traditional narrative approach to the subject, Richard Rex presents an analytical account which sets out the logic of Henry VIII's shortlived Reformation. Starting with the fundamental matter of the royal supremacy, Rex goes on to investigate the application of this principle to the English ecclesiastical establishment and to the traditional religion of the people. He then examines the extra impetus and the new direction which Henry's regime gave to the development of a vernacular and literate devotional culture, and shows how, despite Henry's best intentions, serious religious divisions had emerged in England by the end of his reign. The study emphasises the personal role of Henry VIII in driving the Reformation process and how this process, in turn, considerably reinforced the monarch's power. This updated edition of a powerful interpretation of Henry VIII's Reformation retains the analytical edge and stylish lucidity of the original text while taking full account of the latest research. An important new chapter elucidates the way in which 'politics' and 'religion' interacted in early Tudor England.

Reformation Diarmaid MacCulloch

2004-09-02 The Reformation was the seismic event in European history over the past 1000 years, and one which tore the medieval world apart. Not just European religion, but thought, culture, society, state systems, personal relations - everything - was turned upside down. Just about everything which followed in European history can be traced back in some way to the Reformation and the Counter-Reformation which it provoked. The Reformation is where the modern world painfully and dramatically began, and MacCulloch's great history of it is recognised as the best modern account.

Encyclopedia of Tudor England [3 volumes]

John A. Wagner Ph.D. 2011-12-09 Authority and accessibility combine to bring the history and the drama of Tudor England to life. Almost 900 engaging entries cover the life and times of Henry VIII, Mary I, Elizabeth I, William Shakespeare, and much, much more. • Almost 900 entries covering people, events, ideas, movements, institutions, and publications • An extensive chronology of important events from the Battle of Bosworth Field in 1485 to the death of Elizabeth I in 1603 • Maps and photographs • A guide to related topics • Appendixes that include genealogies and lists of European monarchs, contemporary popes, English bishops, speakers and sessions of Parliament, and major battles, rebellions, and uprisings • A bibliography of historical novels set in the period • An annotated list of films and television programs set in the period • A list of useful websites • An extensive, up-to-date bibliography divided into topical sections

Rethinking Catholicism in Reformation

England Lucy E. C. Wooding 2000 "This book sheds new light on the unfolding of Reformation in England by examining the ideological development of Catholicism in the formative years between the break with Rome and the consolidation of Elizabethan Protestantism. It argues that the undoubted strength of Catholicism in these years may have come less from its traditionalism, and its resistance to change, than from its ability to embrace reforming principles. The

humanist elements within Henry VIII's religious policies encouraged the development of the Erasmian potential already well established in English Catholic thought. A dominant strain of Catholic ideology emerged which attempted not only to defend, but also to reform the Catholic faith, and to promote the study of Scripture, the use of the vernacular, and the refashioning of doctrine. This provided the basis for attempts to launch a Catholic Reformation under Mary I, and remained influential during the early years of Elizabeth, until reconfigured by the experience of exile and the drive for Counter-Reformation uniformity." "Dr. Wooding shows that Catholicism in this period was neither a defunct tradition, nor one merely reacting to Protestantism, but a vigorous intellectual movement responding to the reformist impulse of the age. Its development illustrates the English Reformation in microcosm: scholarly, humanist, practical, and preserving its own peculiarities distinct from European trends. It shows that reform was not a Protestant reserve, but a broad concern in which many participated. Rethinking Catholicism in Reformation England makes an important contribution to the intellectual history of the Reformation."--BOOK JACKET.

English Reformations Christopher Haigh 1993 English Reformations takes a refreshing new approach to the study of the Reformation in England. Christopher Haigh's lively and readable study disproves any facile assumption that the triumph of Protestantism was inevitable, and goes beyond the surface of official political policy to explore the religious views and practices of ordinary English people. With the benefit of hindsight, other historians have traced the course of the Reformation as a series of events inescapably culminating in the creation of the English Protestant establishment. Haigh sets out to recreate the sixteenth century as a time of excitement and insecurity, with each new policy or ruler causing the reversal of earlier religious changes. This is a scholarly and stimulating book, which challenges

traditional ideas about the Reformation and offers a powerful and convincing alternative analysis.

Henry VIII and the Reformation Parliament Patrick Coby 2006 Henry VIII and the Reformation Parliament transforms students into lords and commoners and members of the English parliament during the tumultuous years 1529-1536. The game illustrates the clash between four contending ideas: medieval Catholicism, Lutheranism, Renaissance humanism, and Machiavellian statecraft. Part of the "Reacting to the Past" series, this text consists of an elaborate game in which students are assigned roles that are informed by classic texts and set in particular moments of intellectual and social ferment. The game unfolds just as Cardinal Wolsey is dismissed as lord chancellor for failing to obtain the divorce King Henry VIII is seeking from Catherine of Aragon, and Thomas More is named as Wolsey's replacement.

The Later Reformation in England

1547-1603 Diarmaid MacCulloch 1990 This book provides an introduction to the latest research on the English Reformation from Edward VI's accession to the death of Elizabeth I. It highlights the difference between the official Reformation - what those in power wanted to happen - and the actual impact on clergy and people throughout the nation, including those Catholics and Protestants whom the official Elizabethan settlement ultimately failed to satisfy or include. It describes the growth of barriers between a world of literate, articulate religion and patterns of illiterate belief and magical practice; it assesses the ambiguities, the failures and the achievements of late Tudor religious structures.

The Age of Reformation Alec Ryrie 2017-01-12 The Age of Reformation charts how religion, politics and social change were always intimately interlinked in the sixteenth century, from the murderous politics of the Tudor court to the building and fragmentation of new religious and social identities in the parishes. In this book,

Alec Ryrie provides an authoritative overview of the religious and political reformations of the sixteenth century. This turbulent century saw Protestantism come to England, Scotland and even Ireland, while the Tudor and Stewart monarchs made their authority felt within and beyond their kingdoms more than any of their predecessors. This book demonstrates how this age of reformations produced not only a new religion, but a new politics – absolutist, yet pluralist, populist yet bound by law. This new edition has been fully revised and updated and includes expanded sections on Lollardy and anticlericalism, on Henry VIII's early religious views, on several of the rebellions which convulsed Tudor England and on unofficial religion, ranging from Elizabethan Catholicism to incipient atheism. Drawing on the most recent research, Alec Ryrie explains why these events took the course they did – and why that course was so often an unexpected and unlikely one. It is essential reading for students of early modern British history and the history of the reformation.

The Making of the British Isles Steven G. Ellis 2014-07-15 The history of the British Isles is the story of four peoples linked together by a process of state building that was as much about far-sighted planning and vision as coincidence, accident and failure. It is a history of revolts and reversal, familial bonds and enmity, the study of which does much to explain the underlying tension between the nations of modern day Britain. *The Making of the British Isles* recounts the development of the nations of England, Scotland, Wales and Ireland from the time of the Anglo-French dual monarchy under Henry VI through the Wars of the Roses, the Reformation crisis, the reigns of Henry VIII and Elizabeth I, the Anglo-Scottish dynastic union, the British multiple monarchy and the Cromwellian Republic, ending with the acts of British Union and the Restoration of the Monarchy.

How the English Reformation was Named Benjamin M. Guyer 2022-07-07 *How the English Reformation was Named* analyses the shifting semantics of 'reformation' in

England between the fifteenth and seventeenth centuries. Originally denoting the intended aim of church councils, 'reformation' was subsequently redefined to denote violent revolt, and ultimately a series of past episodes in religious history. But despite referring to sixteenth-century religious change, the proper noun 'English Reformation' entered the historical lexicon only during the British civil wars of the 1640s. Anglican apologists coined this term to defend the Church of England against proponents of the Scottish Reformation, an event that contemporaries singled out for its violence and illegality. Using their neologism to denote select events from the mid-Tudor era, Anglicans crafted a historical narrative that enabled them to present a pristine vision of the English past, one that endeavoured to preserve amidst civil war, regicide, and political oppression. With the restoration of the monarchy and the Church of England in 1660, apologetic narrative became historiographical habit and, eventually, historical certainty.

Reformation in Britain and Ireland Felicity Heal 2003 This text draws upon the growing genre of writing about British History to construct an innovative narrative of religious change in the four countries/three kingdoms.

The Reign of Henry VIII J. A. Macculloch 1995-10-15 Each book in the Problems in Focus series is designed to make available to students important new work on key historical problems and periods that they encounter on their courses. This volume is devoted to the reign of Henry VIII.

The Gospel and Henry VIII Alec Ryrie 2003-10-09 The last years of Henry VIII's life, 1539-47, have conventionally been seen as a time when the king persecuted Protestants. This book argues that Henry's policies were much more ambiguous; that he continued to give support to Protestantism and that many accordingly also remained loyal to him. It also examines why the Protestants eventually adopted a more radical, oppositional stance, and argues that English Protestantism's eventual identity was determined during these years.

Reformation 1855

Martin Luther's 95 Theses Martin Luther
2021-09-10

Heretics and Believers Peter Marshall
2017-05-02 A sumptuously written people's history and a major retelling and reinterpretation of the story of the English Reformation Centuries on, what the Reformation was and what it accomplished remain deeply contentious. Peter Marshall's sweeping new history—the first major overview for general readers in a generation—argues that sixteenth-century England was a society neither desperate for nor allergic to change, but one open to ideas of “reform” in various competing guises.

King Henry VIII wanted an orderly, uniform Reformation, but his actions opened a Pandora's Box from which pluralism and diversity flowed and rooted themselves in English life. With sensitivity to individual experience as well as masterfully synthesizing historical and institutional developments, Marshall frames the perceptions and actions of people great and small, from monarchs and bishops to ordinary families and ecclesiastics, against a backdrop of profound change that altered the meanings of “religion” itself. This engaging history reveals what was really at stake in the overthrow of Catholic culture and the reshaping of the English Church.
