Arab Folktales Inea Bushnaq 1987 Because this collection of folktales covers the entire Arab world from Morocco to Iraq, no other contemporary collection fills the niche it does. It is divided into six sections in categories such as animal tales or adventure tales. Sectional introductions provide the cultural background useful for interpreting the tales. Out of alleys of Cairo and Bedouin tents, from the Moroccan laborers and Syrian peasants, the approximately 130 tales vary considerably in length and portray heroes and villains, corruption and nobility equally. The tales were selected from a broad array of previously published sources and transcripts of the editor's field work.

Reading for Learning Maria Nikolajeva 2014-06-15 How does reading fiction affect young people? How can they transfer fictional experience into real life? Why do they care about fictional characters? How does fiction enhance young people's sense of self-hood? Supported by cognitive psychology and brain research, this ground-breaking book is the first study of young readers' cognitive and emotional engagement with fiction. It explores how fiction stimulates perception, attention, imagination and other cognitive activity, and opens radically new ways of thinking about literature for young readers. Examining a wide range of texts for a young audience, from picturebooks to young adult novels, the combination of cognitive criticism and children’s literature theory also offers significant insights for literary studies beyond the scope of children’s fiction. An important milestone in cognitive criticism, the book provides convincing evidence that reading fiction is indispensable for young people’s intellectual, emotional and social maturation.

A History of Childhood Colin Heywood 2017-12-08 Colin Heywood's classic account of childhood from the early Middle Ages to the First World War combines a long-run historical perspective with a broad geographical spread. This new, comprehensively updated edition incorporates the findings of the most recent research, and in particular revises and expands the sections on theoretical developments in the 'new social studies of childhood', on medieval conceptions of the child, on parenting and on children’s literature. Rather than merely narrating their experiences from the perspectives of adults, Heywood incorporates children’s testimonies, 'looking up' as well as 'down'. Paying careful attention to elements of continuity as well as change, he tells a story of astonishing material improvement for the lives of children in advanced societies, while showing how the business of preparing for adulthood became more and more complicated and fraught with emotional difficulties. Rich with evocative details of everyday life, and providing the most concise and readable synthesis of the literature available, Heywood's book will be indispensable to all those interested in the study of childhood.

Cultural Studies in Foreign Language Education Michael Byram 1989-01-01 Written by the winner of the 1987 BAAL book prize, this book deals with the acquisition of understanding of foreign cultures and peoples. Islam in Europe Jack Goody 2013-05-08 This vigorously argued book reveals the central role that Islam has played in European history. Following the movement of people, culture and religion from East to West, Goody breaks down the perceived opposition between Islam and Europe, showing Islam to be a part of Europe's past and present. In an historical analysis of religious warfare and forced migration, Goody examines our understanding of legitimate violence, ethnic cleansing and terrorism. His comparative perspective offers important and illuminating insights into current political problems and conflicts. Goody traces three routes of Islam into Europe, following the Arab through North Africa, Spain and Mediterranean Europe; the Turk through Greece and the Balkans; and the Mongol through Southern Russia to Poland and Lithuania. Each thrust made its mark on Europe in terms of population and culture. Yet this was not merely a military impact: especially in Spain, but elsewhere too, Europe was substantially modified by this contact. Today it takes the form of some eleven million immigrants, not to speak of the possible incorporation of further millions through Bosnia, Albania and Turkey.

Scars Like Wings Erin Stewart 2019-10-01 Relatable, heartbreaking, and real, this is a story of resilience--the perfect novel for readers of powerful contemporary fiction like Girl in Pieces and Every Last Word. Before, I was a million things. Now I'm only one. The Burned Girl. Ava Lee has lost everything there is to lose: Her parents. Her best friend. Her home. Even her face. She doesn't need a mirror to know what she looks like--she can see her reflection in the eyes of everyone around her. A year after the fire that destroyed her world, her aunt and uncle have decided she should go back to high school. Be "normal" again. Whatever that is. Ava knows better. There is no normal for someone like her. And forget making friends--no one wants to be seen with the Burned Girl, now or ever. But when Ava meets a fellow survivor named Piper, she begins to feel like maybe she doesn't have to face the nightmare alone. Sarcastic and blunt, Piper isn't afraid to push Ava out of her comfort zone. Piper introduces Ava to Asad, a boy who loves theater just as much as she does, and slowly, Ava tries to create a life again. Yet Piper is fighting her own battle, and soon Ava must decide if she's going to fade back into her scars . . . or let the people by her side help her fly. "A heartfelt and unflinching look at the reality of being a burn survivor and at the scars we all carry. This book is for everyone, burned or not, who has ever searched for a light in the darkness." --Stephanie Nielson, New York Times bestselling author of Heaven Is Here and a burn survivor

Solidarity Or Barbarism Gianluca Bocchi 1997 "Solidarity or Barbarism" traces the multiple and complex roots of European peoples, and contrasts this pluralism with the recurring tragedy of -ethnic cleansing, - a tragedy which the authors argue has been all too common in European history. By presenting a new perspective on Europe's origins, the authors open the possibility for a new vision of a complex, heterogeneous Europe based on partnership and cooperation."

The Clothing of Books Jhumpa Lahiri 2016-11-15 How do you clothe a book? In this deeply personal reflection, Pulitzer Prize-winning author Jhumpa Lahiri explores the art of the book jacket from the perspectives of both reader and writer. Probing the complex relationships between text and image, author and designer, and art and commerce, Lahiri delves into the role of the uniform; explains what book jackets and design have come to mean to her; and how, sometimes, “the covers become a part of me.”

Cultural Studies and Language Learning Michael Byram 1991 This is an account of a major research project which studies the contribution of foreign language teaching to learners' perceptions of and attitudes towards the people and way of life whose language they are learning. Teaching and learning in the secondary school were investigated by qualitative and quantitative methods over a 3-year period. The analysis models the many intra- and extra-school influences and sources of information and relationship of language teaching to other factors in learners' environment. By comparing these cases with an ideal model of language and culture teaching, the book points the way towards modification and improvement of existing practices.

Paris Primitive Sally Price 2007-10-15 In 1990 Jacques Chirac, the future president of France and a passionate fan of non-European art, met Jacques Kerchache, a maverick art collector with the lifelong ambition of displaying African sculpture in the holy temple of French culture, the Louvre. Together they began laying plans, and ten years later African fetishes were on view under the same roof as the Mona Lisa. Then, in 2006, amidst a maelstrom of controversy and hype, Chirac presided over the opening of a new museum dedicated to primitive art in the shadow of the Eiffel Tower: the Musée du Quai Branly. Paris Primitive recounts the massive reconfiguration of Paris’s museum world that resulted from Chirac’s dream, set against a backdrop of personal and national politics, intellectual life, and the role of culture in French society. Along with exposing the machinations that led to the MQB’s creation, Sally Price addresses the thorny questions it raises about the legacy of colonialism, the balance between aesthetic judgments and ethnographic context, and the role of institutions of art and culture in an increasingly diverse France. Anyone with a stake in the myriad political, cultural, and anthropological issues raised by the MQB will find Price’s account fascinating.

The Most Important Thing Antonella Abbatiello 2022-03-15 The animals of the forest have assembled to discuss what is the most important thing: to have a trunk like an elephant, quills like a porcupine, or a long neck like a giraffe? Naturally, every animal is convinced

that its particular trait is the most important one and that everyone should have it. But when the double pages open to show all the animals with the quills of a porcupine, the long neck of a giraffe, or the trunk or the elephant, everyone must agree that the true importance lies precisely in their collective 'diversity'. It is that which makes them all unique and essential to life of the forest. The Most Important Thing received a UNESCO honorable mention for peace and collaboration. An important message of diversity and inclusion delivered in the form of a charming modern fable.

[Risk and Resilience in Human Development](#) Corey L.M. Keyes 2020-10-12 This special issue is devoted to the topic of "risk and resilience" in human development, a topic that epitomizes the complexity of human development as a process of constancy and change throughout life. The three empirical papers in this issue represent strong contributions to the growing corpus of research on risk and resilience in human development. The first one focuses on the uniquely vulnerable population of urban ethnic minority adolescent males. The second paper focuses on the risk and resilience from trauma in a sample of mostly Caucasian individuals from rural Iowa, who were at the last assessment, in the midst of transition into young adulthood. It measures an array of mental disorders outcomes and reveals the theoretical importance of timing of the risk factor. The last paper is a study begun in 1978 of a cohort of individuals with serious adolescent-onset mental disorder. It compares these individuals against the risk and resilience profiles of a matched sample without serious adolescent-onset psychiatric disorder. In sum this issue adds to the corpus of the frontiers of resilience research.

[Damascus Nights](#) Rafik Schami 2014-08-08 Rafik Schami's award-winning novel. In the classical Arab tradition of tale-telling, here is a magical book that celebrates the power of storytelling, delightfully transformed for modern sensibilities by an award-winning author. The time is present-day Damascus, and Salim the coachman, the city's most famous storyteller, is mysteriously struck dumb. To break the spell, seven friends gather for seven nights to present Salim with seven wondrous "gifts"—seven stories of their own design. Upon this enchanting frame of tales told in the fragrant Arabian night, the words of the past grow fainter, as ancient customs are yielding to modern turmoil. While the hairdresser, the teacher, the wife of the locksmith sip their tea and pass the water pipe, they swap stories about the magical and the mundane: about djinnis and princesses, about contemporary politics and the difficulties of bargaining in a New York department store. And as one tale leads to another... and another... all of Damascus appears before your eyes, along with a vision of storytelling—and talk—as the essence of friendship, of community, of life. A sly and graceful work, a delight to readers young and old, Damascus Nights is, according to Publishers Weekly, "a highly atmospheric, pungent narrative."

[Colors of the Soul](#) Katherine Parker 2021 Colors of the Soul is an information book to help explain the behavior of souls through color. My goal with this book is to help people understand themselves in hopes that I can make their lives easier. Colors of the Soul attempts to explain the nebulous behavior of souls by attributing the major attributes of souls to tangible colors. These colors come together to form a picture that will display the color of your soul. The book, if nothing else, can also serve as an aid to writing believable and consistent characters.

[Oneself as Another](#) Paul Ricoeur 1992-11-01 Paul Ricoeur has been hailed as one of the most important thinkers of the century. Oneself as Another, the clearest account of his "philosophical ethics," substantiates this position and lays the groundwork for a metaphysics of morals. Focusing on the concept of personal identity, Ricoeur develops a hermeneutics of the self that charts its epistemological path and ontological

status.

The Irresistible Fairy Tale Jack Zipes 2013-10-06 If there is one genre that has captured the imagination of people in all walks of life throughout the world, it is the fairy tale. Yet we still have great difficulty understanding how it originated, evolved, and spread--or why so many people cannot resist its appeal, no matter how it changes or what form it takes. In this book, renowned fairy-tale expert Jack Zipes presents a provocative new theory about why fairy tales were created and retold--and why they became such an indelible and infinitely adaptable part of cultures around the world. Drawing on cognitive science, evolutionary theory, anthropology, psychology, literary theory, and other fields, Zipes presents a nuanced argument about how fairy tales originated in ancient oral cultures, how they evolved through the rise of literary culture and print, and how, in our own time, they continue to change through their adaptation in an ever-growing variety of media. In making his case, Zipes considers a wide range of fascinating examples, including fairy tales told, collected, and written by women in the nineteenth century; Catherine Breillat's film adaptation of Perrault's "Bluebeard"; and contemporary fairy-tale drawings, paintings, sculptures, and photographs that critique canonical print versions. While we may never be able to fully explain fairy tales, The Irresistible Fairy Tale provides a powerful theory of how and why they evolved--and why we still use them to make meaning of our lives.

[Try and Say Abracadabra!](#) Maria Loretta Giraldo 2018-02

Globalizing the student rebellion in the long '68 Andrés Payà Rico, 2018-09-28 This volume brings us closer to the dynamics of the educational world, especially students, from a wide range of national and regional scenarios, with a special focus on Europe and Latin America. In this way, a plural panorama is shown, in which the stories centered on the usual protagonists of the 1968 processes are accompanied by other scenarios, often considered secondary, but which this volume inserts in a more general story that helps us understand how the processes of the 60s were not concrete or national, but got an absolute regional and global significance. We see a complex process of transnational demand that ranged from Eastern Europe, included in the Soviet bloc, to the very heart of the Western Hemisphere, with the United States as the main axis, passing through the politically varied Western Europe, submitted to the same processes and cultural influences. In this sense, to the works that deal with the United States and France, are added others focused on Italy, Spain and Brazil, as priority focus areas, together with other European and Latin American landscapes: Great Britain, Portugal, Greece, Slovakia, Hungary, Chile, Uruguay and Mexico, without missing, in addition, the case of one of the most unique actors on the international scene: the State of Israel. With this volume, we want to continue advancing in the knowledge of the educational world of the second half of the 20th century. Great are the challenges of this world at the beginning of the 21st century and many of them were already evident in 1968. Others have materialized as a result of those events. To confront both of them, we must first identify and analyze them, as well as being aware of their magnitude. We hope that all this work can contribute to this aim.
