Past Life William Lane 2021-08 She wanted to photograph time: everything lost to time, and everything returned by it. Anna grows up in a third-storey unit in Parramatta with her adoptive Russian mother Sophia. When her teacher Miss Glass gives her a Box Brownie camera, small acts of observation coupled with the art of photography become her escape. On visiting the suburb of Castle Hill with her schoolfriend Lisaveta she falls into a seductive world of

gardens and orchards. At the Thompson's place she embarks on a mission to photograph the orchard by night and day. It is there she meets Friedrich an older man, of German origin but from the Soviet Union, who lives in a shed on the property. She eventually learns that he was once a celebrated writer, his ambitions destroyed by the war. As events unfold Anna realises that her connections to the orchard and to Fredrich are deeper than she ever could have imagined. The mysteries and secrets of the past unfold in the most shocking, tender and unexpected of ways. Set in Sydney, and Russia, Past Life is a glorious

novel about the various ways the gifts and traumas of the past play out in the present. It is the affecting story of relationships across generations and William Lane's most hauntingly beautiful work to date. 'Throughout this moving narrative, the traumas and triumphs of the past transform in the light of letters, poems, novels, paintings, photographs, dreams, and memories. Developing with the eerie precision of a photographic plate, old wars, lost loves, swim into view, then intersect, blossom, fade -- and take on new meaning.' -- Carmel Bird

Extinction Events Liz Breazeale 2019-09 In this

collection of short stories, Liz Breazeale explores the connections between humans and the natural world by examining the processes and history of our planet. A myriad of extinction events large and small have ruptured the history of the earth, and so it is with the women of this book, who struggle to define themselves amid their own personal cataclysms and those igniting the world around them. They are a mother watching the islands of the world disappear one by one, a new bride using alien abduction to get closer to her estranged parent, a daughter searching for her mother among the lost cities of the world, a sister

trying and failing to protect her mythical continent-obsessed brother. Here extinction events come in all sizes and shapes: as volcanic eruptions and devastating plagues and meteor impacts, as estrangements and betrayals and losses. Dark, angry, and apocalyptic, *Extinction Events* is a compendium of all the ways in which life can be annihilated.

Foucault's Pendulum Umberto Eco 2007-03-05 Bored with their work, three Milanese editors cook up "the Plan," a hoax that connects the medieval Knights Templar with other occult groups from ancient to modern times. This produces a map indicating the geographical point from which all the powers of the earth can be controlled—a point

located in Paris, France, at Foucault's Pendulum. But in a fateful turn the joke becomes all too real, and when occult groups, including Satanists, get wind of the Plan, they go so far as to kill one of the editors in their quest to gain control of the earth. Orchestrating these and other diverse characters into his multilayered semiotic adventure, Eco has created a superb cerebral entertainment.

Dearly Departed Lia Habel 2014-10-06 A sharp, slick, blisteringly paced debut novel, with an unconventional but tender love story at its heart. I parted the curtains. A skeletal face peered back at me, blackened eyes rolling in sockets seemingly unsupported by flesh. It smiled... It should be game over for Nora Dearly when she is ambushed and dragged off into the night by the living dead. But this crack unit of teen zombies

are the good guys, sent to protect Nora from the real monsters roaming the country and zeroing in on cities to swell their ranks. Can Nora find a way to kill off the evil undead once and for all? Can she trust her protectors to resist their hunger for human flesh? And can she stop herself falling for the noble, sweet, surprisingly attractive, definitely-no-longer-breathing Bram...?

The White Tiger Aravind Adiga 2008-04-22 SOON TO BE A MAJOR MOTION PICTURE The stunning Booker Prize-winning novel from the author of *Amnesty* and *Selection Day* that critics have likened to Richard Wright's *Native Son*, *The*

White Tiger follows a darkly comic Bangalore driver through the poverty and corruption of modern India's caste society. "This is the authentic voice of the Third World, like you've never heard it before" (John Burdett, Bangkok 8). The white tiger of this novel is Balram Halwai, a poor Indian villager whose great ambition leads him to the zenith of Indian business culture, the world of the Bangalore entrepreneur. On the occasion of the president of China's impending trip to Bangalore, Balram writes a letter to him describing his transformation and his experience as driver and servant to a wealthy Indian family,

which he thinks exemplifies the contradictions and complications of Indian society. Recalling The Death of Vishnu and Bangkok 8 in ambition, scope, The White Tiger is narrative genius with a mischief and personality all its own. Amoral, irreverent, deeply endearing, and utterly contemporary, this novel is an international publishing sensation—and a startling, provocative debut.

Charged Aerosol Detection for Liquid Chromatography and Related Separation

Techniques Paul H. Gamache 2017-05-08 The first book devoted exclusively to a highly popular,

relatively new detection technique Charged Aerosol Detection for Liquid Chromatography and Related Separation Techniques presents a comprehensive review of CAD theory, describes its advantages and limitations, and offers extremely well-informed recommendations for its practical use. Using numerous real-world examples based on contributors' professional experiences, it provides priceless insights into the actual and potential applications of CAD across a wide range of industries. Bright Dead Things Ada Limón 2019-02-07 'Bright Dead Things buoyed me in this dismal year. I'm thankful for this collection, for its wisdom and generosity, for its insistence on holding tight to beauty even as we face disintegration and

destruction.' Celeste Ng, author of *Everything I Never Told You* A book of bravado and introspection, of feminist swagger and harrowing loss, *Bright Dead Things* considers how we build our identities out of place and human contact - tracing in intimate detail the ways the speaker's sense of self both shifts and perseveres as she moves from New York City to rural Kentucky, loses a dear parent, ages past the capriciousness of youth and falls in love. In these extraordinary poems Ada Limón's heart becomes a 'huge beating genius machine' striving to embrace and understand the fullness of the present moment. 'I

am beautiful. I am full of love. I am dying,' the poet writes. Building on the legacies of forebears such as Frank O'Hara, Sharon Olds and Mark Doty, Limón's work is consistently generous, accessible, and 'effortlessly lyrical' (New York Times) - though every observed moment feels complexly thought, felt and lived.

Rebel Music Hisham Aidi 2014 In this pioneering study, Hisham Aidi takes us into the musical subcultures that have emerged among Muslim youth worldwide over the last decade. He shows how music - primarily hip-hop, but also rock, reggae, Gnawa and Andalusian - has come to

express a shared Muslim consciousness in face of War on Terror policies

Incarnadine Mary Szybist 2013-02-05 In *Incarnadine*, Mary Szybist restlessly seeks out places where meaning might take on new colour. Through the lens of an iconic moment, the Annunciation of an unsettling angel to a young woman, Szybist describes the confusion and even terror of moments in which our longing for the spiritual may also be a longing for what is fundamentally alien to us. In a world where we are so often asked to choose sides, to believe or not believe, to embrace or reject, *Incarnadine*

offers lyrical and brilliantly inventive alternatives. **Blinding Mircea Cartarescu** 2013-10-15 Part visceral dream-memoir, part fictive journey through a hallucinatory Bucharest, Mircea Cărtărescu's *Blinding* was one of the most widely heralded literary sensations in contemporary Romania, and a bestseller from the day of its release. Riddled with hidden passageways, mesmerizing tapestries, and whispering butterflies, *Blinding* takes us on a mystical trip into the protagonist's childhood, his memories of hospitalization as a teenager, the prehistory of his family, a traveling circus, Secret

police, zombie armies, American fighter pilots, the underground jazz scene of New Orleans, and the installation of the communist regime. This kaleidoscopic world is both eerily familiar and profoundly new. Readers of *Blinding* will emerge from this strange pilgrimage shaken, and entirely transformed.

Receptive Multilingualism Jan D. ten Thije

2007-01-01 Receptive multilingualism refers to the language constellation in which interlocutors use their respective mother tongue while speaking to each other. Since the mid-nineties receptive multilingualism is promoted by the European commission on par with other possibilities of increasing the mobility of the European citizens. Throughout the last ten years a marked increase in the research on this topic has been observable. This volume reveals new perspectives from different theoretical frameworks

on linguistic analyses of receptive multilingualism in Europe. Case studies are presented from contemporary settings, along with analyses of historical examples, theoretical considerations and, finally, descriptions of didactical concepts established in order to transfer and disseminate receptive multilingual competence. The book contains results from research carried out at the Research Center on Multilingualism at the University of Hamburg as well as contributions by various international scholars working in the field of receptive multilingualism.

Region-Making and Cross-Border Cooperation

Elisabetta Nadalutti 2017-12-15 This book explores the nature of regions and how they function, particularly at the local and micro-level. Whilst recent years have seen a resurgence in debates around the roles which regions can play in development, the focus has tended to be on

'macro' regional institutions such as the EU, ASEAN, ECOWAS or MERCOSUR. In contrast, this book offers a nuanced analysis of the important field of sub-regionalism and sub-national cross-border cooperation. *Region-Making and Cross-Border Cooperation* takes a fresh look at both theoretical and empirical approaches to 'region-making' through cooperation activities at the micro-level across national borders in Europe, Southeast Asia, Latin America, Africa and the Middle East. The book aims to explore the role that institutional dynamics play at the micro-level in shaping local and global ties, investigate what

the formal and informal integration factors are that bolster regionalism and regionalization processes, and to clarify to what extent, and under what conditions, cooperation at the micro-level can be instrumental to solving common problems.

Scholars and students within politics, sociology, geography, and economics would find this book an important guide to regionalism at a micro-local level perspective.

Violence and Trolling on Social Media Sara Polak
2020-10-30 'Trolls for Trump', virtual rape, fake news - social media discourse, including forms of

virtual and real violence, has become a formidable, yet elusive, political force. What characterizes online vitriol? How do we understand the narratives generated, and also address their real-world - even life-and-death - impact? How can hatred, bullying, and dehumanization on social media platforms be addressed and countered in a post-truth world? This book unpicks discourses, metaphors, media dynamics, and framing on social media, to begin to answer these questions. Written for and by cultural and media studies scholars, journalists, political philosophers, digital communication

professionals, activists and advocates, this book makes the connections between theoretical approaches from cultural and media studies and practical challenges and experiences 'from the field', providing insight into a rough media landscape.

Womb Wisdom Padma Aon Prakasha 2011-01-21

Tools to awaken the creative powers of the womb

- Contains exercises to open the womb's energetic pathways, release toxic emotions, and harness creative potential
- Reveals how the womb's energies are crucial for the spiritual shift of 2012: birthing a new civilization
- Shows how

the awakened womb can also bring about male spiritual transformation In the past and in present-day indigenous traditions, women have known that the womb houses the greatest power a woman possesses: the power to create on all levels. Utilized in the process of giving birth, this power of creation can also be tapped in the birth of projects, careers, personal healing, spirituality, and relationships. However, because the womb stores the energetic imprint of every intimate encounter--loving or not--the creative voice of the womb is often muffled or absent altogether, affecting the emotional, mental, and spiritual

health of women and their relationships. Drawing on sacred traditions from ancient India, Tibet, Egypt, Gnostic Christianity, and Judaism, the practice of Womb Wisdom empowers women to become aware of the intuitive voice of the womb outside of pregnancy and the moon cycle to unlock this potent inner source for creativity, birthing the new conscious children, spiritual growth, and transformation not only for themselves but also for their male partners. The authors include exercises to clear the past, release toxic emotions, open the womb's energetic pathways, activate the sacred sensual

self, bring balance to relationships, and harness creative potential. Including intimate, individual stories of women experiencing the opening of the womb, this book also explores the forgotten sacred sites of the womb around the world as well as how the womb's energies are crucial to birth a new civilization in the spiritual shift of 2012.

The Functional Art Alberto Cairo 2012-08-22

Unlike any time before in our lives, we have access to vast amounts of free information. With the right tools, we can start to make sense of all this data to see patterns and trends that would otherwise be invisible to us. By transforming numbers into graphical shapes, we allow readers to understand the stories those numbers hide. In this practical introduction to understanding and using information graphics, you'll learn how to

use data visualizations as tools to see beyond lists of numbers and variables and achieve new insights into the complex world around us.

Regardless of the kind of data you're working with—business, science, politics, sports, or even your own personal finances—this book will show you how to use statistical charts, maps, and explanation diagrams to spot the stories in the data and learn new things from it. You'll also get to peek into the creative process of some of the world's most talented designers and visual journalists, including Condé Nast Traveler's John Grimwade, National Geographic Magazine's

Fernando Baptista, The New York Times' Steve Duenes, The Washington Post's Hannah Fairfield, Hans Rosling of the Gapminder Foundation, Stanford's Geoff McGhee, and European superstars Moritz Stefaner, Jan Willem Tulp, Stefanie Posavec, and Gregor Aisch. The book also includes a DVD-ROM containing over 90 minutes of video lessons that expand on core concepts explained within the book and includes even more inspirational information graphics from the world's leading designers. The first book to offer a broad, hands-on introduction to information graphics and visualization, *The Functional Art*

reveals:

- Why data visualization should be thought of as “functional art” rather than fine art
- How to use color, type, and other graphic tools to make your information graphics more effective, not just better looking
- The science of how our brains perceive and remember information
- Best practices for creating interactive information graphics
- A comprehensive look at the creative process behind successful information graphics
- An extensive gallery of inspirational work from the world's top designers and visual artists

On the DVD-ROM: In this introductory video course on information graphics, Alberto Cairo goes into

greater detail with even more visual examples of how to create effective information graphics that function as practical tools for aiding perception. You'll learn how to: incorporate basic design principles in your visualizations, create simple interfaces for interactive graphics, and choose the appropriate type of graphic forms for your data. Cairo also deconstructs successful information graphics from The New York Times and National Geographic magazine with sketches and images not shown in the book. More Than a Body Lexie Kite 2020-12-29 Drs. Lindsay and Lexie Kite know firsthand how hard filtering out media influence is when it comes to self-image. Both struggled as young women to

overcome the expectations of body size and shape, but were able to learn to love, appreciate, and reclaim their own bodies, eventually earning their PhDs in body image resilience. The twin sisters founded the nonprofit Beauty Redefined and have made it their mission to help other women see themselves without societal expectations distorting their self-perception. More than a Body is a self-help book focused on going beyond body positivity, showing how a mindset focused on appearance sets women up for insecurities and self-judgement. In this book, they offer an action plan for readers to combat that

mindset, and instead learn how the body can be "an instrument, not an ornament," with practical, actionable steps to take when consuming media, exercising, practicing self-reflection and self-compassion, and finding a purpose in life.

Transfiction Klaus Kaindl 2014-01-28 This volume on Transfiction (understood as an aestheticized imagination of translatorial action) recognizes the power of fiction as a vital and pulsating academic resource, and in doing so helps expand the breadth and depth of TS. The book covers a selection of peer-reviewed papers from the 1st International Conference on Fictional Translators and Interpreters in Literature and Film (held at the University of Vienna, Austria in 2011) and links

literary and cinematic works of translation fiction to state-of-the-art translation theory and practice. It presents not just a mixed bag of cutting-edge views and perspectives, but great care has been taken to turn it into a well-rounded transficcionario with a fluid dialogue among its 22 chapters. Its investigation of translatorial action in the mirror of fiction (i.e. beyond the cognitive barrier of 'fact') and its multiple transdisciplinary trajectories make for thought-provoking readings in TS, comparative literature, as well as foreign language and literature courses.

Eat healthy without feeling deprived. Reach your healthy weight goal while growing closer to God through the process.

Protest - Parteienscheitern - Politikverdrossenheit: Politikkritik in der Demokratie Heidrun Kämper
2022-04-14 Demokratie wird im Wesentlichen

durch Kommunikation und Argumentation konstituiert und legitimiert. Dieses Aushandeln von Entscheidungen steht im Fokus verschiedener Erscheinungsformen von Politikkritik, die in der Sprachwissenschaft inzwischen selbst ein Thema der Forschung geworden ist. Der vorliegende Band dokumentiert die Vorträge, die bei der Arbeitstagung der Arbeitsgemeinschaft Sprache in der Politik zum Thema »Protest – Parteienscheitern – Politikverdrossenheit: Politikkritik in der Demokratie« vom 7. bis 9. Mai 2015 an der Universität Trier gehalten worden sind. Die

Autoren und Autorinnen des Sammelbandes nähern sich dem Gegenstand »Politikkritik in der Demokratie« aus unterschiedlichen, interdisziplinären Perspektiven: Im ersten Teil des Bandes wird Politikkritik aus sprach- und literaturwissenschaftlicher Sicht diachronisch betrachtet. Im zweiten, umfangreicheren Abschnitt des Sammelbandes »Kommunikative Praktiken und sprachliche Strategien der Politikkritik heute« werden aus sprach- und sozialwissenschaftlicher Perspektive unterschiedliche Facetten kommunikativer Praktiken und sprachlicher Strategien von Politikkritik an konkreten

Beispielen erläutert. Die Beiträge des dritten Teils analysieren den Untersuchungsgegenstand länderübergreifend. Die Beiträge stellen eine Basis für die weitere Erforschung eines zentralen Gegenstands der Politolinguistik dar.

The Persistence of Language Shannon T. Bischoff

2013-05-28 This edited collection presents two sets of interdisciplinary conversations connecting theoretical, methodological, and ideological issues in the study of language. In the first section, Approaches to the study of the indigenous languages of the Americas, the authors connect historical, theoretical, and documentary linguistics

to examine the crucial role of endangered language data for the development of biopsychological theory and to highlight how methodological decisions impact language revitalization efforts. Section two, Approaches to the study of voices and ideologies, connects anthropological and documentary linguistics to examine how discourses of language contact, endangerment, linguistic purism and racism shape scholarly practice and language policy and to underscore the need for linguists and laypersons alike to acquire the analytical tools to deconstruct discourses of inequality. Together,

these chapters pay homage to the scholarship of Jane H. Hill, demonstrating how a critical, interdisciplinary linguistics narrows the gap between disparate fields of analysis to treat the ecology of language in its entirety.
