Faith at Home Wendy Claire Barrie 2016-10-01 • Growing need for resources to help parents engage in faith conversations at home • Talking points, practices, and resources included Home (not the congregation) and parents (not clergy, youth ministers, or Sunday School) are the key mechanisms by which religious faith and practice are transmitted intergenerationally. Recent studies indicate that the single most important factor in youth becoming committed and engaged in their religious faith as young adults is that the family talks about religion at home. However, for many parents in the United States, religious language is a foreign language. Faith at Home will help parents learn this "second language" and introduce it to their children in simple, meaningful, concrete ways. Parents often ask: How do we introduce prayer to our children if we do not necessarily believe prayer changes outcomes? How do we approach reading the Bible with our children when our own relationship with it is mixed or complicated? How do we talk about difficult things and where do we find God in the midst of them? How do we teach our children to make a difference in the world? How do we connect what happens at church to what happens at home? These questions and many more are addressed with talking points, practices, and resources provided for each subject.

Bunker Bradley Garrett 2021-08-03 "A kind of apocalyptic Super Size Me" (The Guardian) that is both "page turning and thoughtful" (Financial Times) about "prepper" communities around the world that are building fortresses against an array of threats. Currently, 3.7 million Americans call themselves preppers. Millions more prep without knowing it. Bradley Garrett, who began writing this book years before the 2020 Covid-19 pandemic, argues that prepping is a rational response to global, social, and political systems that are failing to produce credible narratives of continued stability. Left with a sense of foreboding fueled by disease outbreaks, increasing government dysfunctionality, eroding critical infrastructure, nuclear brinkmanship, and an accelerating climate crisis, people all over the world are responding predictably—by hunkering down. Garrett traveled across four continents to meet those who are constructing panic rooms, building underground backyard survival chambers, stockpiling supplies, preparing go bags, hiding inflatable rafts, rigging mobile "bugout" vehicles, and burrowing deep into the earth. He has returned with "a big-thinking, deep-diving, page-turning study of fear, privilege, and apocalypse" (Robert Macfarlane, author of Underland) from the frontlines of the way we live now: an illuminating reflection on our age of disquiet and dread that brings our times into new and sharper focus. With scenes that are "fascinating, amusing, crazy, chilling, and surreally topical" (Douglas Preston, author of Lost City of the Monkey God), Garrett shows that the bunker is all around us: in malls, airports, gated communities, the vehicles we drive. Most of all, he reveals, it's in our minds.

You Shook Me ALL Campaign Long Eric T. Kasper 2018-11-15 Music has long played a role in American presidential campaigns as a mode of both expressing candidates' messages and criticizing the opposition. The relevance of music in the 2016 campaign for the White House took various forms in a range of American media: a significant amount of popular music was used by campaigns, many artist endorsements were sought by candidates, ever changing songs were employed at rallies, instances of musicians threatening legal action against candidates burgeoned, and artists and others

increasingly used music as a form of political protest before and after Election Day. The 2016 campaign was a game changer, similar to the development of music in the 1840 campaign, when "Tiptecanoe and Tyler Too" helped sing William Harrison into the White House. The ten chapters in this collection place music use in 2016 in historical perspective before examining musical messaging, strategy, and parody. The book ultimately explores causality: how do music and musicians affect presidential elections, and how do politicians and campaigns affect music and musicians? The authors explain this interaction from various perspectives, with methodological approaches from several fields, including political science, legal studies, musicology, cultural studies, rhetorical studies, and communications and journalism. These chapters will help the reader understand music in the 2016 election to realize how music will be relevant in 2020 and beyond.
